

AAC SOFT

DESIGN BY HEE WELLING & HAY

HAY

AAC SOFT FAMILY

With the objective of supplementing HAY's iconic AAC chair series with a softer, more organic expression, the About A Chair Soft features the softness and warmth of the quilted shell, whilst retaining the fundamental mission of creating a connected family of chairs based around one simple, strong idea. Available in a variety of interchangeable base types in wood, aluminium or steel and numerous upholstery options, the AAC Soft series is a versatile and functional collection suited to a wide variety of domestic, office, and public settings.

HEE WELLING

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA) and has been nominated as the Danish designer of the year in both 2013 and 2014. Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centred around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a great sense of proportion and quietly elegant looks. For HAY, Welling has designed the About A Collection and the Hee Chair, Lounge Chair and Bar Stool.

ABOUT A CHAIR SOFT

The AAC Soft series counterbalances its soft, quilted shell with the high functionality and varied expression offered by a choice in bases. Retaining the same high backrest and generous seat that characterises the About A Chair series generally, its increased level of comfort makes it particularly well suited to domestic contexts, where it works beautifully with the About A Table, the Triangle Leg Table and the CPH Tables. In a more professional contract environment, it can be paired with a New Order table to create a productive and inviting conference room setup.

AAC 27 Soft, Fairway Dark Blue 308-288, Black powder coated base
