## KUNA CHAIR

4/5 star base

# Design story

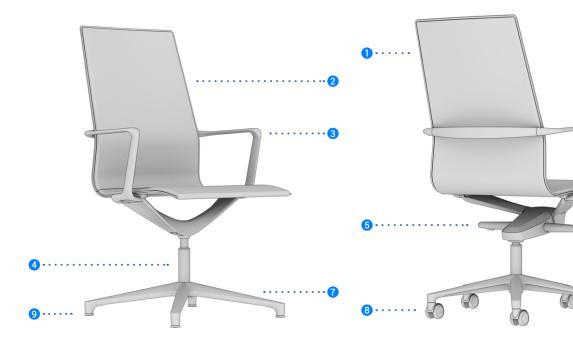

Kuna is a chair that combines tradition and warmth of saddle leather with an elegant and essential line. Only the finest saddle leathers are selected to produce the Kuna Chair, in which beauty and texture are absolute protagonist. It is possible to choose between different colors that, coupled with the linear aluminum structure, enhance the essentiality and cleanliness of the seat even further.

Collection of chairs with die-cast aluminum structure, chromed or polished. Available in three backrest heights. Seat and backrest made of saddle leather. Height adjustment with pneumatic gas lift. Four star base on glides or five star base on castors.

## Specifications

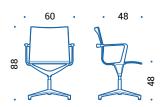

- Structure: Frame made of tubular steel for a rigid structure able to maintain its shape even under conditions of considerable stress. Visible load-bearing elements made of die-cast aluminum with polished or chromed finish. Available in three backrest heights.
- 2 Seat and backrest: The saddle leather sheet covers the supporting structure padded with a series of variable density polyurethane foam. The sheet thus obtained fit to perfectly distribute the weight of the body.
- 3 Armrests: Closed shape, made of die-cast aluminum with finish depending on the structure. Optional saddle leather armrest covers. Available also without armrests.
- Swivel auto-return mechanism: This special mechanism, not adjustable in height, allows the swivel chair to freely rotate and automatically returns it to its original position to keep the position of the meeting chairs always aligned. It is standard on the 4-star base models.
- Height adjustment: Seat height can be adjusted a maximum of 12 cm with a lever. The gaslift complies to EN16955:2017.

- Tilt mechanism: An intuitive and effective tilt mechanism that instantly follows the user's movements. The particularly forward rotation point reduces pressure on the lower limbs while the chair rocks. The movement of the seat allows up to 13 ° of oscillation. The side knob allows to adapt the resistance of the tilting mechanism to the weight and sitting style of the user. Lever controls integrate the seat height adjustment, allow to lock/unlock the tilting mechanism in 4 positions and activate the backrest safety release.
- **Base:** Four or five star base made of die-cast aluminum, with a polished or chromed finish depending on the structure. Available with castors or plastic glides.
- Cators: In black plastic with soft running surface for use on any type of flooring and a load depending safety brake complies to EN 12529:2001. Castor cover in chromed Zamak, diam. 50 mm.
- 9 Glides: In black nylon base and soft-plastic glide, diam. 37 mm.
